Professional Speaker

Endurance Athlete

As an established speaker, father of two and community leader, I work closely with my team to mold personal, and professional growth, stemming from **'The F.O.R.E.V.E.R. Essentials'**. These individual concepts were developed alongside twenty years of financial sales leadership, endurance athletics, customer experience and non-profit management.

Combined into a systematic process, **'The F.O.R.E.V.E.R. Blueprint'** is designed to fully examine our physical and emotional growth to ultimately work toward establishing the best version of ourselves. I believe life should be an adventure to cherish and appreciate. To continuously driving our passions daily, directly impacts the fulfillment of that journey.

I look forward to learning about how we can work together to impact your business growth.

Seminar & Keynote Engagement

FIND Purpose for Your Pain

We are introduced to the concept of finding the catalyst from within each of us. Everyone has a different struggle within. We learn to harness the darkness for the change we seek.

OPEN Your Eyes to Appreciate Life

We work to provide vision and the reason why we must be relentless. There are many who have not been as fortunate. For those who lost the battle early, we remain steadfast in our pursuit.

REMEMBER To Keep Family, Work and Passions in Balance

Our family is everything. We take a deep dive into our current situation and work to leverage our passions to impact growth from within. This discipline filters over into our work. The three pillars provide balance.

EMBRACE Positive Self-Talk to Keep Moving Forward

We work to create the ability talk through the barriers we face and learn to ignore when the mind is telling the body to stop. We are all challenged at times but learning to filter the noise to remain positive most of the time is vital.

VISUALIZE The Heroes in Life Who Drive You The heroes are those who taught us the value of grit, determination, and the higher purpose. We work to identify the 'Third Boat' within our lives – the most powerful visualization which has pushed Darren through his lowest points.

ESTABLISH A Consistent Management Routine

It is not only about how we manage our work, but how we manage our entire well-being. Our daily routine of consistent growth is the focus, and how we can find those necessary hours throughout the week to continue pushing forward.

REINFORCE A Legacy of Leadership

We tie all the concepts into legacy and put a profound focus on what mark we are going to leave behind. We lead with purpose, truth and conviction to care, love and provide a lifetime of exploring the limits of our existence.
