LEGACY OF  
LEADERSHIP

# Darren Miller

As an established speaker, father of two and long-time youth sports coach, I work closely with Administration to mold personal, and professional growth. I am passionate about helping others develop the strongest version of themselves. I believe we are all uniquely motivated to achieve personal and professional challenges to benefit and strengthen our families and careers beyond the classroom.

The F.O.R.E.V.E.R. Blueprint I developed will equip athletes with skills to overcome their challenges to thrive on the field as well as in the classroom. I have coached high school athletics for many years and have actively worked with all levels of education for well over a decade. I am looking forward to aligning our messages for success.

*Darren Miller, President, Every Breath A Gift, LLC*

**“Darren was such an inspiration to not only our athletes, but also the coaches. Just listening to him makes you want to run a marathon. The students were mesmerized by his passion for competition and message on mental toughness, meeting challenges and being a great teammate. The Q&A segment was enlightening to see how the student-athletes comprehended the information and yearned for more insight into his mind for advice. I highly recommend Darren if you are interested in achieving greatness.”**

**Bob Petcash, Head Coach, Pine-Richland Varsity Basketball**

**“Darren is a dynamic presenter who conveys a powerful message that inspires audiences of all ages and backgrounds. He provides techniques and pragmatic strategies that empower. Whether you are a student, CEO, professional athlete or just looking for ways to grow as a leader, Darren's message is certain to prepare you for success on your personal journey.”**

**Dr. Gennaro R. Piraino, Pennsylvania Superintendent of the Year, Franklin Regional School District**

**“Darren inspired our educator audience to think about more than results -- he got them thinking about legacy. That message, which the audience loved, is in lockstep with our own brand and why we exist as a company. Just as Darren is driven to serve something bigger than himself, our company, and the educators we work with, are driven by the very same thing. Darren's story is powerful and engaging - highly recommended.”** John Jorgenson, Chief Marketing Officer, Carnegie Learning

### Strengthening Leaders

Today's students are exposed to so much negativity, both in and outside of school. Social media, television, music, peer pressure and family issues, to name a few, impact their time spent at school and how they view the world around them. While a difficult home environment is not always easily changed, Darren's F.O.R.E.V.E.R. Blueprint guides students to understand the necessity of avoiding the noise. He helps them see the positive light in themselves and the world. His most requested educational engagements are overcoming adversity, resisting bullying, increasing self-confidence, and establishing Social and Emotional Learning.

### Thinking Outside the Box

Overcoming life challenges takes a lot of will and determination. Darren leverages his experience in endurance athletics, philanthropy, and the real-world corporate environment to give examples of going above and beyond to become the strongest version of ourselves. Darren focuses on guiding students to become stronger in their resolve, develop new ways to approach challenges and realize a sense of gratitude for the daily opportunity to achieve their dreams.

### Every Breath A Gift

While focusing on our own personal pathway to success, Darren's belief is that charity and volunteerism remain at the forefront of our lives. His story of challenging some of the toughest environments on earth to raise critical funding for Team Forever and the Forever Fund at UPMC Children's Hospital of Pittsburgh is truly inspiring. His passion for endurance and athletics drives his charity, however it is the mindset of knowing that anything is within our grasp if we work for it. That is the gift Darren skillfully shares.
